Subscription per Annum, \$2.00, Foreign \$2.50

Threshing Stopped by Wet Weather

Threshing operations have been suspended since last Thursday on account of rain and snow, which has been falling intermittently during the past week.

The wet weather has been accompanied by some frost, and garden stuff has suffered somewhat. The lowest temperature recorded was 25.5 on the morning of the 10th.

The grain that has been shipped into local elevators so far since threshing commenced is of high quality, and nearly all the wheat will go No. 1.

The yields are running to most cases between ten and twenty bushels per acre. Most of the crop in the hauled out section is being threshed, and a few bushels per acre realized.

While the present weather is delaying threshing, it is putting the ground in good condition for fall plowing, and will enter the winter with a considerable reserve of moisture in the soil.

Last fall was absolutely rainless, and this to some extent accounted for the short crop this year.

Alleged Bootlegging Case

A local farmer was fined \$200 and costs for selling liquor, at a police court held on Tuesday. It had been intended to hold the case on Thursday, and several witnesses would have been forward, but accused elected to plead guilty.

Another man against whom the same charge had originally been laid, had the charge altered to having liquor illegally in his possession, and was fined \$25 and costs.

Two cases of drunkenness having a connection with the foregoing were disposed of by Justice Lambert on Tuesday afternoon with penalties of \$15 and costs.

Announcement of Election Date Probable Next Week

It is understood that Premier McMillen will make an announcement next week as to the date of the coming Federal Election which has been stated will be held before the New Year. Business men throughout the Dominion have been petitioning the Premier to have the election very before the beginning of the Christmas trade.

Preliminary steps towards organizing the election have been taken. Conventions of the C.P.A. have been called in two ridings in Alberta, announcements of others may be expected shortly.

The Liberals, at a meeting held in Calgary, announced their desire to contest every seat in the Province, but this is probably only a pious aspiration.

In the riding of East Calgary no steps have been taken as yet by any of the political parties, but developments may be expected very shortly.

Duck Supper Monday

Community Club Will Discuss Local Problems After the Feast.

Strathmore Community Club will hold their monthly meeting in the Memorial Hall on Monday evening next. Local hunters are going out to bring down some ducks to grace the tables, and the ladies of the G.W.V.A. Auxiliary will prepare them for the table.

After the supper the Club will take up points of local interest, especially the provision of a cutting and skating rink for the winter. The club have secured the permission from the Town Council of the use of eight lots in a very good location, and steps will be taken to further advance the project, so that the rink will be level and in the shape of the opening of the winter.

All interested in the good and welfare of the town and district are invited to attend the supper and join up with the club. The supper will commence at 6:30 p.m.

Dr. A. W. Glynn is new secretary of the club, and will be only too glad to receive members or give any information possible.

School Fair to be held Next Wednesday

Next Wednesday will be the big day for the children, when the third annual school fair, which is being held under the supervision of the Department of Agriculture, will take place.

Twelve schools are taking part in the fair, these being Akenstad, Berta Vale, Colmhill, Crowfoot, Fairplay, Hervey, Namaka, Nightingale, Orange Valley, Serviceberry, Strathmore, Glebeville.

Prizes are being offered for Garden Products, Grain, Cooking, Sewing, House Economics, Art and Manual Arts, Penmanship, Map Drawing, Live Stock, School Competition.

Sports Day Also

A programme of children's sports will also be brought off on Wednesday afternoon, consisting of running and jumping contests, and a pony race.

The Strathmore Women's Institute are giving a prize for the competitor winning the most first prizes.

Nearly all the children within a twelve mile radius of Strathmore will be in for the day, and a very good collection of exhibits is looked for, as many of the young folks have been putting a lot of time into the preparations for the fair.

The president of the Committee is Mr. W. Vickery, and the Secretary Rev. T. Phillips, and they will be pleased to furnish all possible information. The fair will probably be held in Strathmore School grounds.

The public generally are invited to visit the fair.

Rotarians Visit Postponed

The visit that was to have been paid by the members of Calgary Rotary Club to Strathmore Demonstration Farm last Saturday had to be postponed on account of the inclement weather.

The postponement was made with a great deal of regret, both on the part of the Rotary Club and their hosts, and it has not been abandoned, but will be held on some future occasion when the weather conditions are more propitious.

Getting the Most Out of the Farm

William Gilbert's Home and Farm at Stony Plain, Alberta.

As a rule a farmer in a new country does not get nearly so much as he might from his farm. Why should he? Land is cheap. If he wants to get larger returns he can easily get more land. So he reasons. He aims, therefore, rather to increase the size of his farm than to increase the output from the land he has.

But will not intensive farming pay in a new country? It is not better for a farmer to double the production on the land he has, rather than double the size of his farm to obtain this end? Judging from the success of several hundred of farmers in various parts of the prairie provinces of Canada, the last part of the North American continent to be developed where land is no doubt as cheap as anywhere, intensive farming methods do pay even in a newly developed country, especially if good railway transportation facilities are available.

One farmer who has made a great success by farming intensively in this new country is William Gilbert. His farm at Stony Plain, Alberta, about twenty miles west of Edmonton, is being made to produce to the limit, and yet, at the same time, he is being converted to a better, because the main products are better, milk, pork, mutton and wool.

Mr. Gilbert hails from England, where the farms, as a rule, are one-sixth smaller than those in Canada or in the United States. There he spent his early life, and learned a great deal about the dairying and stock raising businesses. He came to Canada in 1904, taking up a homestead in the town of Stony Plain, where he has since been farming. He has since then been farming intensively, and has now a herd of Holsteins and at the present time, has including calves, a herd of about fifty head of pure bred. The outstanding cow of the herd is Mercedes Dichenstein.

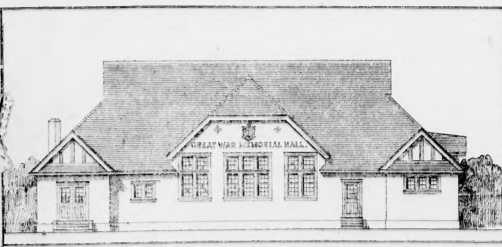

This cow yields about seventeen hundred pounds of milk in full flush. Another good cow is Lorry. Wayne. The animal that stands third place in

the herd during the month of January last year yielded 1400 pounds of milk. Mr. Gilbert's stable is full of good cows as is evidenced the record books which show that most of them yielded from 1,500 to 1,700 pounds of milk per month. At the Quarry Brook Farm—the name by which Mr. Gilbert's farm is known—a milking machine is used, between eighteen and twenty cows are being milked at the present time. About one-half of these cows yield over fifty pounds of milk daily. They are milked three times daily, and Mr. Gilbert finds that the milking machine is a very profitable investment. He uses a B. I. K. milker, which cost about \$100 to install, and he contends the machine paid for itself the first year.

Mr. Gilbert feeds his pure bred cows for commercial profits. The rule that he follows is to feed one pound of grain to every three and a half pounds of milk produced, and find it profitable to give his cows this quantity even with the present high prices of grain. From his experience he concludes that there is no reason for the milk sheds showing a decreased yield during the winter months and he contends that if a cow is given the proper shelter and food and water in the right proportions, she will give as much milk when stabled as when on grass.

One of the biggest problems Mr. Gilbert has in the past has been to secure enough pasture to properly winter his stock, but he is satisfied that he has solved the problem by the installation of a silo. Last year he built a thirty by four foot silo, which, including the value of labor, cost between \$40 and \$50 to build, and was filled with green oats. The results so far have been very satisfactory, and he believes that it is one of the "best investments" that he has made. He has also other forms of roughage that he depends upon as mowhay, hay, round feller, broom grass and roots. He is also trying out sweet clover.

Memorial Hall Canvass To Be Undertaken

In an endeavor to have the interior of Strathmore War Memorial Hall completed so that it can be used this winter a canvass was agreed on at a meeting held last Thursday between representatives of the G.W.V.A. and Messrs Jos Van Tighem, B. Fox, and E. Dobson, representing Strathmore Community Club.

The work to be done includes plastering, installation of furnaces, flooring, etc., and the amount required to do this will be between \$2,000 and \$4,000.

The canvass will be undertaken as early as possible, probably at the end of this week, and another meeting of

the Committee is being held this evening to arrange final plans.

The district will be divided into sections, and it is hoped by this means and the co-operation of all who can spare a little time for the work to have the district covered thoroughly, and those who have not yet contributed to the Hall Fund canvassed.

School Fair September 21st

[illegible]

Municipal District of Bow Valley No. 219

TAX SALE

Sale of lands in the Province of Alberta for arrears of taxes in the Municipal District of Bow Valley, No. 219.

NOTICE is hereby given that the following lands in the Municipal District of Bow Valley, No. 219, will be offered for sale for arrears of taxes and costs on Saturday the 29th day of October, 1921, at 11 o'clock in the forenoon at the Fire Hall, Strathmore, unless the arrears of taxes and costs be sooner paid.

Dated at Strathmore this 10th day of September, 1921.

W. G. WAY,

Secretary-Treasurer,
Municipal District of Bow Valley,
No. 219.

Strathmore, Alberta, September 14th, 1921

TAX SALES

In this issue will be found lists of lands advertised for
taxes in the Municipal Districts of Keoma and Bow Val-
ley. These have a very formidable appearance, and it
would seem from them that there are a considerable num-
ber of arrears of taxes to be collected.

The meaning of the tax sale list is that owners of the
lands listed on it have not paid their 1920 taxes. The pro-
cedure adopted came into force last year, and is known as
the Tax Recovery Act. Under this Act, when lands are
not paid a year in arrears of taxes, they are advertised
for sale. At any time previous to the sale the owner can
have his land withdrawn from it by paying the taxes, and
the costs.

If the taxes are not paid at the time of sale the original
owner has one year to redeem them, but he must pay the
buyer ten per cent. on the sum he put up, and also any oth-
er costs that may have been accrued. At the end of the
year's period, if the original owner has not redeemed, the
purchaser gets title.

The Act is a very stringent one. It does not allow
any leeway on the part of the Municipal bodies to give
grace to taxpayers who are in arrears. In fact, this is one
of the reasons it was introduced, as some Municipalities
had been allowing arrears to pile up without taking active
steps to collect.

Taxes are high just now, and the burden seems heavy
but they are less than anywhere on the continent. If taxes
were paid promptly they would not be so high. It is
those who allow their taxes to fall into arrears who make
taxation higher for others, because of the additional costs
incurred in collection, and the necessity of borrowing
money.

THE EAST AND THE TARIFF

The Government apparently intends to make its big
stand in the tariff question, and in the next two months the
air will be filled with the resounding clash of argument on
the respective merits of free trade and protection.

There is no finality in the fiscal argument. It has
been discussed and rediscovered for the last hundred years
without any authoritative decision having been reached.
In fact, there are two schools of economics throughout the
world, one teaching the dogmas of free trade, and one of
protection, and both making laws of their own to fit the
case.

The tariff will not be the only question on which the
present election will hinge. The Government's record
since 1917 will affect a great number of votes. Then also,
the problem of reconstruction. The war was looked upon
as a testing time. We are passing through the fire of
purification, and we were promised practically a new
heaven and a new earth once the conflict was over. But
now the same politicians who during the war preached the
doctrine of salvation are now arguing for a return of con-
ditions as they existed before the war. If we revert to
the status quo, all the loss of life and money, and the suf-
fering endured, will be as naught. We want new men and
new ideas in Parliament.

How does the West stand as regards the tariff? Does
it cost us anything and what do we get in return.

It only needs a comparison of prices on practically any
article in the Western States as compared with Western
Canada to tell if the tariff is costing anything to us.

What do we get for the tariff? We get a certain
amount back in taxes. But have we any industries in
Western Canada that have been built up as a result of the
tariff. They are not apparent to the naked eye.

There is no doubt that protection has established big
industrial centres in Eastern Canada, who sell to a market
largely Western. The crops we raise in the West are not,
however, sold in the East. If they were the tariff would
serve the purpose for which it was stated to have been es-
tablished, to build up a home market. Western Canada's
produce, beyond what is used in Western Canada, largely
goes overseas to Britain, and a certain amount to the U.S.

President Findlay, of the Massey-Harris Co., has stat-
ed that if the tariff is taken off farm implements he will
move his factory to the Western States. A better plan
would be for him to move it to Western Canada, where his
customers are. The West will not be permanently settled
until it has industries. With the raw materials and nat-
ural waterpowers, etc., that exists here, it will ultimately
become an industrial centre.

The West derives little or no benefit from the tariff.
We get no return from the extra money we pay from the
tax on almost every article we buy.

If a tariff has to be, and it seems certain that it will be
a long time before we have Free Trade, let it be condition-
al on each manufacturer producing his goods not two
thousand miles from his customers, but right where his
customers can sell him something back. Also make it
conditional that he pays his employees fair wages. There
are enough millionaires in Canada. What we want to
see is a greater degree of prosperity and security of em-
ployment for the farmer and the workman.

SCHOOL DEVELOPMENTS

Strathmore School Board are faced with the necessity
of providing additional teaching staff. They have gone
ahead and added to their staff, which was the only thing
to do. The same problem is confronting towns and cities
throughout Alberta at present. Hafina, Bassano, Drum-
heller, etc., have found the attendances this term much
beyond their estimates.

Education is not cheap. It cannot be cheap and be
thorough, but it is the best investment that any ratepayer
can make, whether he has children of school age or not.
The prosperity and happiness of the Dominion to-morrow
depends upon the intelligence of the generation who are
growing up to take our places. We can do them no better
service than by providing them with a good education, and
Alberta has reason to congratulate herself upon the im-
provements that have taken place in the Provincial system
of education within the past few years.

There is room for improvement yet in the system of
levying taxes. At present one ratepayer may pay \$25 a
year in school taxes, while his neighbor across the road,
with a similar acreage, may pay twice as much by reason
of living in another school district. And the man paying
\$25 may be getting his children educated better than those
of the man who is paying double.

NAMAKA NEWS

Threshing outfits here had just commenced to go in good shape when the break in the weather suspended operations. It is gratifying to hear that the hail damage is not so serious as at first thought.

The shooting season opened up strong, and our town was visited by quite a number of hunters from different parts of the country. If they did not get full tags it was not the fault of the ducks.

Mr. Bert Spurgeon's brother and a friend from Saskatoon were visitors here last week.

Several of our young ladies commenced school at Strathmore High School with the opening of the fall term. We sincerely hope, Archie, Charlie and Alf will not miss this old burg too dull now.

Mr. Geo. Peterson was a visitor to Calgary on Labour Day.

We regret to hear that Mr. J. Ewing met with an accident on the 16th inst., having a horse fall with him. He sustained injuries to the head and back which we trust will have no serious effect. Dr. Ferguson is in attendance.

A meeting of the F.W.A. will be held at Mrs. Harlow Brown's on Saturday the 17th inst.

Mr. W. G. Colpoys is assisting Mr. Alex Young at the Alberta Pacific and Namaka Farm Elevators.

Local Notings

OF LOCAL INTEREST

Readers are requested to send in items for this column not later than 12 o'clock Monday morning preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 68.

Last night the Women's Institute Convention opened in the Union Church, and the ladies from all parts of the district. Owing to its closeness to press time, we are not able to give a report but will do so in next issue.

Mr. C. H. Kniskern, of Nemaska, Nebraska, who is interested in farm land west of Strathmore, has been in town for the past week, attending to his interests. He reports that grain crops are very good down in Nebraska.

Mr. W. E. Brown arrived last night to look after the threshing operations on his farm and attend to his business interests in the vicinity. Mr. Brown sold out his previous business last year to Messrs. Barber and Crawford, and since then has been living with his wife and family at Victoria, B.C.

Mr. Norman Holmes, at one time in business in Strathmore, has purchased the stock and business of the High River Trading Co.

Strathmore Amateurs have commenced rehearsals for a comedy play "Mary's Millions," which will be produced within the next two months for the benefit of Strathmore Memorial Hall. It is the intention of the society to produce at least three plays during the winter, and those with frequent yearnings are invited to take part.

A dance is to be held in the Memorial Hall on Friday evening of this week, proceeds being for the benefit of the Memorial Hall building fund. Music will be provided by Mrs. Trainor's orchestra. Cafeteria supper will be served by the G.W.V.A. Ladies Auxiliary. As the bill says "It's G.W.V.A., so it's bound to be good."

Messrs. West and Forbes, our local veterinarians, have had considerable business this fall in the way of repairing threshing belts, and have given good satisfaction with their work.

A daughter was born to Mr. and Mrs. G. H. Carlson, Nihilanthia, on Sunday, at Strathmore Hospital.

Motor cars are showing considerable reduction in prices these days, as will be seen from our advertising columns.

Sunday, September 25th is the date of the Annual Rally Day programme in the Union Sunday School.

Harvest Home Services are being arranged for in the Union Church on September 25th.

Ladies Aid Society of the Union Church met last week in the home of Mrs. Grivin. Arrangements were made for the Harvest Home Sale and Tea, September 26th, after which dainty refreshments were served by the hostess, Mrs. R. A. Anderson and Mrs. Van Buren assisted in serving.

School Fair Day September 21. The Women's Institute will serve lunch on the grounds. Bread and butter, hot water sandwiches, pie, cake, and coffee; cafeteria style, also ice cream. Proceeds go towards the Women's Institute Chair Fund for the Memorial Hall.

Dr. F. R. Edmonds, dentist, will be at the King Edward Hotel Monday and Tuesday of next week as usual. 218-4

An experiment which will be of considerable interest to local farmers if it proves successful is being conducted this winter by Mr. R. E. Smith, of the C.P.R. Department of Animal Husbandry staff. An excavation 6 feet by 18 by 36 is being made, in which will be placed sunflowers from five acres nearby, with possibly some oats. This form of silage requires no material cost, labor being the only item. The requirements are a location where no surplus water will come into the pit. The result of this winter will show if it can be successfully adapted here, and if it works will result in it being largely made use of in the future.

School Board Equips Sixth Room

Owing to the congestion in the lower grades of the Strathmore Schools, the Board decided on Tuesday evening to equip an additional room and change a teacher.

The equipment has now been ordered and Miss Gunn, who up to last June was teaching in Edmonton, engaged, and we understand the new room will be opened this week.

The school commenced with an enrolment of one hundred and eighty, and this enrolment is being added to daily.

The same problem is being faced in a number of towns and city schools throughout the province at the present time, the number applying for enrolment being in excess of estimates.

U.F.A. Meet on 24th

As will be seen from our advertising columns, a meeting of Strathmore U.F.A. will be held in the King Edward Hotel on Saturday September 24. A number of subjects of special interest are on the carpet. Those interested in the shipping of beef are particularly asked to be present. A proposition has been put forward for a pool to ship beef to the Old Country.

Arrangements are being made to have members of the U.F.A. who have not become citizens of Canada yet naturalized, and those who wish to do so should get particulars from the Secretary.

It is possible that by the time of the meeting a call will have been sent out for a farmers' convention for the riding of East Calgary, and that the local will be called upon to nominate and instruct delegates.

STRATHMORE'S DEPARTMENTAL STORE

Town Council Meets

A meeting of Strathmore Town Council was held last Thursday evening in the Town Hall, there being present Mayor Butler, Councillors Anderson, Bell, French, Taylor, and Marshall.

The Nuisance Ground

The Council are negotiating with the C.P.R. for the purchase of land for a nuisance ground, but the deal is not yet completed, so the matter was held over till next meeting.

Silent Policeman

The Council have had under consideration the putting of a silent policeman at the corner of second Avenue and Second Street. A silent policeman will be something of a novelty here, Strathmore never having had one of that variety before since the days of McIntosh. A tender was received from Mr. M. S. Hilt for the erection of the post, and this was referred to the Public Works Committee with power to act.

A number of accounts were read and referred to the Finance Committee. **Minimum Tax To Be Enforced** The Council decided to take steps to enforce the collection of the tax of \$4.00 for school purposes, levied on all residing within the limits of the school district who are not paying taxes in any other way. Desirable proceedings will be taken if the tax is not collectible otherwise, and employers will be held liable for any of their employees who fail to pay. The Constable was instructed to collect the tax.

Skating Rink Site

Dr. Olvera appeared on behalf of the Community Club, to ask the Council for the use of the lots on the corner of Third Street and Second Avenue for the purpose of erecting a skating and curling rink. The Council were generally in favor though they thought that in the present condition of the Town Finance they could not do much beyond arranging the site.

With this, however, it is thought that an arrangement can be formed to build both a skating and curling rink in good time for the forthcoming winter. A lot of expense has been caused in the past by attempting to level ground for skating rinks after freeze-up.

School Board Asks Additional Funds

CHEADLE NOTES

Cheadle school has opened with Mrs. Hoffman as teacher. She has taken R. Newmyer's house for the term.

Miss Barnwell spent the week-end visiting in Calgary.

Ray Olsen is back on the job after a week's stay at his home at Millerville, Alta.

Charles Cowell had the misfortune a few days ago to crack a rib when he fell on the top of a separator.

Mrs. Bert James, of Calgary, has returned to her home after a few days visit at Grant Coulee.

Threshing has been in full swing in this district up till the snow.

The grain around here is not turning out as well as expected.

Mr. and Mrs. Manning and Mr. and Mrs. Ware, of Indiana, are visiting at J. G. Miller's. They motored through and report a good trip.

Each week you will find in the Standard advertising of local merchants who want your business and are offering you bargain prices. Don't forget to read the ads. In this paper every week.

Chairman McDonald and a delegation from the School Board appeared and asked the Council to finance the Board for a room beyond the current estimates, as on account of the big increase in school attendance it was necessary to open another room in the school, which involves buying furniture and employing another teacher. After explanations the request was agreed to unanimously.

Teaching the Young Idea Principal Williams asked the Mayor if the Council would be agreeable if some of the higher grades in the school, who were studying civics could come to a future Council meeting and watch how the business of the town was conducted.

The Mayor replied that everyone was welcome to attend the Council meetings, and that they would be pleased to see the children there.

Nightingale and Calgary play cricket The game of cricket has flourished this summer in the Nightingale district, and teams of outside cricketers have journeyed there several times this season to try conclusions with the locals.

ARDENODE NOTES

The next meeting of the U.F.W.A. will be held at the home of Mrs. J. Taylor; all are urged to be there as it is nearing the time for our last year.

Mrs. Evans and son went to Calgary last Tuesday on business.

The last meeting of our local U.F.W.A. was held at the home of Mrs. Thompson. Although most of the members were late in arriving, a very nice meeting was held and ended as usual with a delicious lunch. Those present were: Mrs. Horvick, who also acted as president, Mrs. Dawson, Mrs. Kerns, Mrs. Taylor, Miss Kirpatrick, Miss Gohard, Mrs. Gohard, Mrs. Poffitt, Mrs. McKortie, Mrs. Whittons, and Mrs. J. Booth.

A few have started threshing in our neighborhood, but the weather man soon stopped their work.

INDEMNITIES PAID MEMBERS

In response to an inquiry the Lethbridge Herald answered a number of questions about the salaries and indemnities paid cabinet ministers and members of parliament in Alberta and cabinet ministers and members of parliament at Ottawa.

The cabinet ministers in Alberta are paid \$5,000 each plus \$2,000 seasonal indemnity, or \$7,000 in all. The prime minister receives \$8,000, plus the seasonal indemnity of \$2,000, or \$10,000 altogether. Up till 1910 the seasonal indemnity was \$1,500, but in that year it was increased to \$2,000, and this amount is received by each member of the legislature. The speaker of the legislature and the leader of the opposition receive in addition \$2,500 each, and the deputy speaker is paid an additional amount of \$750. At Ottawa prior to 1920 the cabinet ministers were paid \$7,000 plus a seasonal indemnity of \$2,000, or \$9,000 in all. In 1920 the indemnity was increased, as was also the allowance given to the prime minister, the cabinet ministers and the leader of the opposition. The prime minister now receives \$15,000 plus a seasonal indemnity of \$4,000. Each cabinet minister receives \$10,000 plus \$4,000 indemnity. The opposition leader is paid \$10,000 plus the seasonal indemnity of \$4,000. Each member of the house of commons and the senate receives a seasonal indemnity of \$1,000 per session, lasting at least fifty days.

CARSELAND NOTES

Born to Mr. and Mrs. W. H. Hill in the General Hospital, Calgary, on Wednesday the 7th, a daughter. Both mother and child are doing well.

The Board of Trade met on Monday evening last in the Church when there was a fair attendance. Besides the regular business two matters of importance were taken up. The secretary was asked to write the C.P.R. re trees for planting around the town. It was also decided to overhaul the pump and put it into shape for the winter. The pump committee undertook the task and Messrs Davis and Harris were given the job.

Sunday, the 25th will be observed as Rally Day at the Church and a good programme is being prepared by the children. The Sunday School will meet as usual at 2 p.m. for the preliminary exercises and this will be followed by an open session of the school at 2 p.m., taking the place of the regular service. The whole service will be of a special nature and everybody is invited to attend.

Mr. W. Laurie has rented the Addison house for the winter and will move in immediately.

Threshing in the whole district was halted on Thursday owing to rain, which was followed by snow on Friday.

In the absence of W. H. Hill who was detained in Calgary most of last week by domestic duties, Hault was on his absence in the store.

NOTICE OF JUDICIAL SALE OF FARM PROPERTY

Pursuant to the judgment and final order for sale made in a certain action in the Supreme Court of Alberta, Judicial District of Calgary, No. 16492, there will be offered for sale by Public Auction at the Post Office in the Town of Strathmore, in the Province of Alberta, at 12 o'clock noon, on Saturday, the 8th day of October, 1921, the following lands and premises: The West Half and South East 1/4 of Section 22, in Township 24, Range 26, West of the 1st Meridian, in the Province of Alberta, (excepting school site of 2 acres out of the South East Quarter of Section 22.) The Vendor is informed that the property consists of 472 acres more or less situate about 5 miles Dairy, and 1 1/2 miles from Lethbridge. That on the property are the following improvements: 212 acres of 1920 ploughing, and 82 acres of 1920 breaking of which 22 acres have been sown four times. 140 acres of this acreage has been double harrowed and 150 acres were irrigated in 1920.

The property will be sold subject to a reserve bid, fixed by the Court, and subject to the taxes for the current year and to the reservations contained in the original grant for the Crown or appearing on the existing Certificate of Title.

Terms of Sale: 10 p.c. deposit at the time of the sale, 15 p.c. within 60 days thereafter without interest, and the balance in three equal instalments in one, two and three years from the date of the sale, with interest at the rate of 8 p.c. per annum, or at the option of the purchaser, the whole amount may be paid within 60 days without interest. All payments except the deposit, to be paid to the Clerk of the Court at Calgary. In all other respects, the standing conditions of the Court will apply.

Further particulars will be made known at the time of the sale or may be had from Lent, Mackay & Mann, 105 Grain Exchange Building, Calgary, Alberta, Solicitors for the Vendor.

Dated at Calgary, Alberta, this 5th day of September, A. D. 1921.
A. G. A. CLOVES,
Clerk in Chambers.

Approved: J. F. CLARRY,
M.C.

Town of Strathmore, Alberta
TAX RECOVERY ACT

To Whom It May Concern,
TAKE NOTICE that certain lands have been sold by the Town of Strathmore, on account of non-payment of taxes, and the year allowed for redemption will expire on the 6th day of November 1921.

If you wish to contest the legality of the sale of such lands you should immediately make application to the judge of the District Court of the judicial district within which the said land is situated, for an order staying the issue of a certificate of title to the purchaser of such lands. A list of said lands can be seen in the Alberta Gazette of date September 15.

Dated at the Town of Strathmore, Alberta, this 27th day of August, 1921.
F. H. LILLY,
Treasurer.

IRRICANA NEWS

Mr. and Mrs. Bob Paget and child of Medicine Hat, spent Saturday in Calgary en route to Irricana, where they will reside in the future. A considerable amount of snow fell on Thursday evening. The storm was followed by very heavy frosts.

Mr. Wm. Irvine, of Calgary, spent the day at the Cloverdale Farm. The freshening which has been in full progress was stopped for a few days by the recent snow storm.

number of the small schoolchild gave a surprise party for little Vera Neece on Friday evening the infant daughter of Mr. and Mrs.

School Fairs
Help Community

Every Encouragement Should Be
Given by Citizens Generally in
Aiding Such Fairs

School Fairs are to the boys and
girls what the larger fairs are to the
adults. The School Fair is a great
factor in improving the farm produc-
tion and farm industry; it is very ef-
fective in helping the teacher to
realize the importance of teaching
agriculture in the public school; it
makes our rural people better and
happier. The School Fair in fact
gives the finishing touch to the work
of agricultural teaching, and if we
are to expect any progress along the
line of improving our agricultural
shows we must look to the coming
members of society and there is no
thing more natural for the boy or girl
than to combine his or her efforts in
the interests of the School Fair to the
larger, more extensive and more pro-
fitable Agricultural Exhibition.

The following points might well be
observed in the exhibiting of grains
and vegetables:

Shovels—Have straw full length
remove loose leaves, arrange heads
neatly, trim off bottoms and bind
securely.

Grain—Clean thoroughly and re-
move all foreign seeds.

Manure—Select most uniform in
size and shape.

Corn—Select well-matured ears
with well-filled and straight rows.

Carrots—Medium size, smooth, free
from sunburn, uniform in size and
color and shape.

Beets—Medium size, smooth, dark
colored and uniform.

Potatoes—Even in size, smooth,
shallow eyes and free from scabs.

Note: Avoid extra large carrots,
beets and potatoes as these are sel-
dom most suitable for table use. The
individuals in a collection should be
as well-matched as possible.

Strathmore School Fair, September
21, 1921.
